Hello – Tetra Tech has completed the first tributary model, and we are using the outcome of this as a pilot to see if we want to continue that approach for the remaining tributaries. Some questions came out of my call with them last week, which I thought would be good timing to go over with all of you. I'm attaching the tributary model powerpoint from TetraTech, and have created an agenda outline of what I thought we could try and cover today. Thanks!

### Agenda

1. Go over general timeline/big picture (10 min)
  - a. When should we share the technical approach with Ecology?
2. Review Ayer Creek tributary model presentation (15 min)
3. Discussion questions on the tributary model (45 min):

## Ex. 5 Deliberative Process (DP)

4. Other big picture questions, if time allows (20 min):
